Howard E. Turrel, General Manager
U.S. Ferto Corporation
P.O. Box 111
Spanish Fork, UT 84660

Dear Mr. Turril:

We have received your Mining and Reclamation Plan. We must inform you that we will not proceed with the review or approval of the plan for the following reasons:

1. Because the surface estate is administered by the Forest Service they have the principle authority over reclamation procedures. Through a cooperative arrangement to minimize duplication, this agency and the Forest Service will work together to approve your plan. When the Forest Service has the final reclamation plan as per their requirements they will copy it to us for our review and approval. You should work primarily with the Forest Service in preparing your plan.
2. You have not submitted a completed MR Form 1, "Notice of Intention to Commence Mining Operations". This form should be completed and submitted with the correct identification of ownership of the surface and mineral estates.

This division will be glad to meet with you and the Forest Service, as necessary, to complete the details of your mining and reclamation plan. We appreciate your cooperation and will wait to hear from you in the near future.

Sincerely,

BRIAN W. BUCK
ENGINEERING GEOLOGIST
